

## YES FOR EARLY SUCCESS COOPERATIVE SINGLE AUDIT DEFINED

YES For Early Success is scheduled for its first audit in **November 2024**, with the organization's accountant needing one month to certify all invoices. YES is a nonprofit and a cooperative, which made finding an auditor versed in both nonprofit law and cooperative structures crucial. The organization uses QuickBooks to manage its books, works with two accounting firms, and has brought in a CFO and an in-house bookkeeper as part of its new finance department. Audit results are expected by the end of 2024.
